Mrs. Lawrence Whiting, who was Eleanor Robinson Countiss, the daughter of a wealthy eastern manufacturer, had no taxable income. Neither did Ira Nelson Morris of the family of packers, who served as Ambassador to Sweden. Nor did Cyrena Van Gorden, the opera star.

The Countess De Janze was in this class, as were also the following:

The Marshall Field estate paid a total tax of \$927,559.

This amount is in addition to \$244, which Marshall Field was taxed personally in the Chicago district and \$226,759 which he paid in New York, where he now makes his residence.

Among those who paid heavy income taxes in the Chicago district (Continued on Page 2, Column 6)

HOPES STILL FELT FOR FLYERS DESPITE FAILURE OF SEARCH

Vast Sea Area Combed Vainly by All Types of Craft in Hunt for PN-1, With Danger Intensified by Forcast of Squalls Near Islands

(BY CABLE AND ASSOCIATED PRESS)
HONOLULU, Sept. 2.—Confidence of Navy officers here in Commander John Rodgers continued unshaken tonight as darkness succeeded day and the Navy seaplane PN-9 No. 1 remained unaccounted for. Hope was based on the record of the commander of the missing plane for resourcefulness, ability and courage, exhibited when he was in charge of the Pearl Harbor air station here, From daybreak to dusk today, all available ships, of all types, joined in seeking the seaplane in an ocean area of some hundred square miles, northeastward of the Island of Maui. The faster ships went around in ever-reducing circles starting with a circumference of nearly 200 miles, reducing to one of thirty-five miles. Navy officers declared they will-DOEING HOP

back and forced an extravagant use of gasoline to push on. Then she ran into rain, which kept the ships previously stationed to protect the seaplane from seeing her, and finally, her gasoline gone, was forced into the ocean after she had signalled her passing of the U.S.S. Arocstock, 1860 miles from the California coast. That was about 1:45 p.m., Tuesday.

Heroic Personnel of Ill-Fated Hawaiian Plane THE TOTAL STATES

ing, no lunch had been provided for us. We had 'chow early, and then settled down for the flight, almost singing as we did so.

"The first thing to happen was that the radio gave way. Something went wrong with the generator. This generator is run by a windmill arrangement, made to revolve by the air som the propeller. This main propeller generates a breeze comparable to a 200-mile gale, and to climb out to the radio generator is exceedingly dangerous. I told the radioman, C. W. Allen, not to try to fax it, but he climbed right out at the risk of his life in a desperate attempt to get the radioworking again.

"It could not be fixed while we were in flight, and so we prepared to steer our. course by stars, instead of getting our bearings by radio from the guardships along the route. Then came the realization that the oil line was broken, and we knew our flight was at an end.

"It was a shame, too. At the rate we were consuming gasoline then I estimated that we could stay in the air for thirty-five hours. We came down and simply had to drift there until help should arrive. Our radio was out of commission and there was no way of broadcasting our plight.

"Each guardship has orders that the radio gave the route of the radio working again."

"ANY TRADITION TRESCUE

"Back guardship has orders that the radio gave the route of the radio working again."

TELLS OF RESCUE

TELIS OF RESCUE

"Each guardship has orders that as soon as both planes had passed the ship was to proceed in the direction of the flight until the planes reported at the next guardship. That way we knew the William Jones would come along eventually. We kept out one good engine going so that we would not drift too far off our course, and waited. "We stayed there from 7 o'clock

"We stayed there from T o'clock in the evening until 2 in the morning. One man was on watch, while the rest slept. We first sighted the searchlights of the destroyers, playing on the clouds. We sent up a pistol rocket. They got our bearings from that and came right over.

HONOLULU, Sept. 2.—If Commander John Rodgers of the Navy seaplane PN-9 No. miehap to his plane, a tradition that has existed ever since the United States has had a Navy will have been broken.

The United States Navy always has had a John Rodgers. The first was an officer over.

"The destroyer tried to trail a line over our stern, but they underestimated the amount of our drift and crashed right into us. The right wing, the allerons and the stabilizer were damaged. Then they put a boat over the side and Lieut. Gavin went aboard to superintend the placing of tow lines.

We kept one man standing out on

to take twenty-six hours or longer to accomplish.

Tended by the minesweeper Gannet. the PB-1 probably will be held at San Pablo Bay until the start, according to Commander Strong. Short flights around the bay and over the ocean, as tests of the plane's new engines and weather conditions, will be made tomorrow and will be continued until the PB-1 is sent on its long flight to the islands.

Unless the PB-1 is brought back to its base at Crissy Eleid, the large force of mechanics and utility men employed in keeping the huge seaplane in good condition will continue work on the plane at San Pablo Bay, maintaining their living quarters in the barracks at Crissy Field.

The officers and men on the PB-1 will establish their living quarters on board the Gannet.

WASHINGTON. Sept. 2.—The Department of Commerce is going to produce a booster film for the national capital. The expense of producing the film, which will depict the beauties of the capital and public buildings, will be borne by the local Chamber of Commerce. The department is lending its facilities for producing the film just as it has other educational and industrial films.

How Do You Buy Rheumatism Relieved

Mr. Eastman Could Not Walk to Bathtub Without Assistance, But Coso Mineral Mud Baths and Volcanic Iron Water Restore Health

After years of suffering with rheumatism, my condition became recently almost helpless. Through the advice of the manager of a large lumber company I began the use of Coso Volcanio Iron Water and Volcanio Mineral Mud Baths. Drinking the water seemed to thoroughly arouse my liver and rapidly improved my digestion. When I first began taking the mud baths, my wife had to assist me to the tub, as it was practically impossible for me to take the baths without assistance. After drinking the water only a few days and after two op three of these baths the inflammation was rapidly removed and my condition improved to such an extent that I could take the baths without help, and now, after completing the course, I am in better physical condition than in many years. I have perspired as I had never perspired in my life since pouring this volcanic mud into my bath water. My skin was dry and fest unnatural, but the clay seemed to open the old closed perspired to draw like a pulsation actually feel today that Cose Water man and life worth living. I have absolutely no interest in the Cose treatment further than to assist my friends and anyone who may suffer from rheumatism or a similar aliment. Those interested my correspond with me or speak with me in person.

The First Wisconsin National Bank of Milwaukee Wis., showed that the bank clearings for the first ist months in 1924 amounted to 3948,614,300 against \$4,019,600,297 for the same period in 1925.

Illinois banks and business reports were for a good fall trade.

The River

TROM the Great Lakes to the Gulf, America's greatest river flows majestically. Through the heart of the country it takes its course, broadening and deepening as lesser rivers empty their flow into its current. Farms and cities on its banks find it a source of industry and a means of supply.

Through the country runs another river, as continuous as the Mississippi in its flow. It is the river of thought which, day and night, moves through the land and vitalizes the national life. Its source lies in the people's knowledge that communication with all parts of the country is possible. It is a stream that deepens and broadens and grows stronger as thought is added to thought, as the mind of one community joins the mind of another.

America's national telephone system is a channel for this river, for Bell System service unites all sections of the country. It leaves no gap in the pathway of communication. It knows no off-duty hours, nor any corner of the nation that is too remote to be reached.

Daugherty Quiz, Says Prisoner

ATLANTA (Ga.) Sept. 2 .- After eing released from the Atlanta Federal penitentiary today George Remus, wealthy Cincinnati bootles prisoner, issued a statement in which he declared false his repudiation of testimony before the Daugherty investigating committee of the Senate last year.

Remus was rearrested immediately upon his release here and later in the day the party left for Dayton, O., where the prisoner will institute habeas corpus proceedings for his freedom on the ground that another sentence imposed on him at the time he was sent to Atlanta was to be concurrent.

In his statement, given voluntarily, he said he had denied his testimony before the committee investigating Atty.-Gen. Daugherty while under duress, and after "many promises" had been made to him. Federal penitentiary today George

MEXICAN CONSUL HAS TORTOISE-SHELL CANE

[EXCLUSIVE DISPATCH]

SAN ANTONIO (Tex.) Sept. 2.
Turtles have all kinds of uses, but a new one was discovered at the I & G. N. Railroad station here.

A. M. Elias, brother of President Calles of Mexico, and consul-general and financial agent in New York, carried a shiny black and yellow tortoise-shell cane. It is slender and very flexible.

It was given Mr. Elias by President Calles when both were in the Campeche camapign during the recent revolution.

The Spanish name for tortoise-shell is carey. Mr. Elias says most of the combs and other tortoise-shell materials sold in the United States come from Campeche.

ECKNER DROPS AID TO AMUNDSEN OVER WAR

BERLIN, Sept. 2.—It is reported that Dr. Hugo Eckner of the Zeppelin Company, who piloted the dirigible airship ZR-3, now the Los Angeles, across the Atlantic, will not co-operate with Roald Amundsen in any future polar expedition. Dr. Eckner in a speech at Leipsic is credited with having said that he had learned Amundsen was against Germany during the World War and therefore he would not aid him in any Arctic exploration trip. SALT LAKE CITY, Sept. 2.—A formal dinner was tendered delegrates to the one hundred thirty-second summer meeting here of the second summer

are that the unofficial strike of seamen in the British Isles may not hecome widespread owing to the threat of the ship owners to take on new crews from among the hundreds of unemployed men who have flocked to various ports hoping to get jobs.

hundreds of unemployed have flocked to various ports hoping to get jobs.

The strike in the port of London is declared to be a failure, it being asserted that any number of extra men can be obtained on a few hours' notice and that there is little desire among the crews here to desert their ships.

FILMS HELD UNFIT

The strike in the port of London paint fumes were responsible for his jag.

He pleaded guilty to the charge, but insisted that he had not consumed any liquor.

I'was drunk; but my legs wobbled because I was dizzy from fumes of turpentine and lead."

Corbett explained to Judge Elliot Gibbs. "I had been painting all day—not drinking."

The court, unimpressed by this theory, sentenced the man to pay 3100 fine or spend 100 days in Jall.

"I want to withdeau my plea."

MURDERS REVEAL LIQUOR WAR SHAW RAGES IN DOCTOR DEBATE

> General Medical Council of Britain Flayed

Writer Says Organization is "Laughing Stock"

Disinterested Control Urged for Profession LONDON, Sept. 2.—George Ber-ard Shaw has taken a hand in a

force discussion raging anent the decision of the Irish Free State government to emancipate Irish decicrors from control of the British General Medical Council.

In a long letter to the Irish Times, he writes:

"The Free State government will, I hope, resolutely carry out its announced intention of rescuing Ireland from the disastrous control of that despised and self-disgraced trade union, the British Medical Council. At present unregistered practitioners in London charge, and are willingly paid, higher fees than the registered doctors because they have acquired modern technique, which the council boycotts and persecutes.

"The most famous manipulative surgeon in England, knighted for his services though being unregistered, is denounced and ostracized as a quack by men of whom some, though registered as competent surgeons, are hardly dexterous enough to manipulate their own shoelaces. The council avenges itself for this public slight of knight-hood by threatening to repeat its old exploit of striking off the register as guilty of infamous professional conduct any registered doctors have been paid to remain and formed the Minute of the council avenges itself for this public slight of knight-hood by threatening to repeat its old exploit of striking off the register as guilty of infamous professional conduct any registered doctors who acts as anaesthetist to the knight, for its members are determined that if he dares to perform operations which are outside their technique, his patients, the public, shall howl for it.

CALLED "OUT OF DATE" (KILLUP FOR PROBATE) approximant railroad who have a prominent represented as corporated and inquired into the asserted fallure of Dr. Locke to fine members as a prominent represented as corporated and inquired into the asserted fallure of Dr. Locke to fine an income-tax report since the income-tax law became operative the trace fallure of Dr. Locke to fine an income-tax law became operative the trime, and 1913, inclusive, the tax claimed for years preceding 1913 having one.

Th

self-controlled medical profession.' A self-controlled profession is a conspiracy against the laity. Of all professions on earth the medical professions consisting mainly of private medical and surgical practitioners who have a direct pecuniary interest in making us ill. keeping us ill and mutilating us is one that needs the sternest distinterested control, not only in the common interest of the general body of citizens, but in that of science."

Jag Blamed on Fumes of Lead and Turpentine

PASADENA, Sept. 3. - Sweet cording to Charles Corbett, a painter, who appeared in Police Court today on charges of appearing on the streets in an intoxicated condition. Corbett declared that paint fumes were responsible for his lag.

By a "Times" Staff Correspondent
PASADENA, Sept. 2.—More
than 600 feet of motion-picture
films selected by local theaters
during the past month were morally unfit for the citizens of Pasadena to see, in the opinion of the
city's Board of Review.
The censors ordered this footage stricken from thirteen different
productions before allowing them
to meet the public's eya, according
to figures submitted to the Board
of Directors today. Two films were
so completely abhorrent to the reviewers that they refused to allow them to be exhibited here.
The citizens' morals were further safeguarded by this body
which visited forty-five news stands
in the city during the past
month, read the publications and
confiscated those which were not
suitable for general perusal. Some
score of magazines fell under the
ban.

Clothes and Gas

The difference when you can't "Take it or Leave it"

WHAT happens when there is an increase in the price of wool and the wages of suit-makers?

You know the answer, because you have seen

The price of a suit of clothes follows the cost of wool and labor—up or down.

And there is no delay nor formality about it.

The merchant simply marks the goods with the price he thinks is right—and you can buy it or leave it.

The same thing is true of groceries and houses and automobiles and everything else needed in our daily life, except public utility service.

Because you are not in the position to "take it or leave it" when gas is in question, the safeguard of State Railroad Commission regulation is

So, because the pinch of higher costs has been felt by your gas Corporation for several years without relief in the form of higher gas rates, the State Railroad Commission is being asked to in-vestigate the matter and write a new price tag for

WHERE TO GO-HOW TO GET THERE

Time Payments on General Motors cars

N August 1st General Motors announced important reductions in its time payment charges on General Motors cars-notwithstanding the fact that General Motors charges have always been the lowest.

The important thing to the purchaser is the total cost of a car. The time payment charge is a part of such total cost when the car is bought on time. These reductions therefore mean, in such instances, a substantially lowered total cost.

It is the policy of General Motors to pass on to the car purchaser economies wherever effectedin financing as well as in engineering, manufacturing or merchandising operations.

> The purchase of a car out of income is a universally accepted practice. Six years ago General Motors organized the General Motors Acceptance Corporation (GMAC) to make credit available at the lowest possible cost to purchasers of General Motors cars.

> The standard time price of any General Motors car is the cash delivered price, plus only the new GMAC charge.

Mrs. McPherson, it was said, was not informed of the asserted plant to kidnap her.

Investigation of the case was assigned to Deputy Dist.-Atty. Fricke, who verified the statements issued by Capt. Finlinson.

"From the investigators we assigned to the case," Fricke said, "we have learned that Mrs. Ray at one time tried to lure them into a liquor hi-jacking plot and that she proposed a robbery at another time. As for the kidnaping plot, she explained to me that she was only joking when she mentioned it to the detectives."

When told of the plot last night, Mrs. McPherson stated she was "astonished and interested."

"The police never mentioned such a kidnaping plot to me," she said. "However, I'm sot worried, as I have a loyal, volunteer body-guard with me always. I've never asked psoteotion but my friends never fet me pass from the Temple to the house alone, especially since this little trouble with the branch church in Santa Ans."

BILL HENRY

WORLD'S Series be-tween Pittsburgh ar Washington seems to be Washington seems to be a certainty with the huge lead already piled up by the Pirates and the rapid slide being made by the Philadelphia Athletics, the only American League team capable of nosing out the champs of last year. It will certainly be a novelty to have the series played entirely outside of New York but it will be very welcome. Any time it is possible to get new teams and new communities into the World's Series it is a very good thing for the game as a whole.

Babe Ruth seems to have

Babe Ruth seems to have really put his foot in it this time and, as might be expected, is coming back whinning for mercy when he finds that his old-time drag with the big boss is a thing of the past. Ruth is not the star that he has been—not by a long shot. Not only is the variety of baseball he has been playing very much below par but his actions before and since his sus-

ball he has been playing very much below par but his actions before and since his suspension have made the public rather generally feel that he matter how they punish him, it won't be too much. A man who occupies the public eye must learn to behave himself.

Dick Donald certainly ought to be handed the hand-painted cuspidor for his ability to line up great fistic cards. The boy promoter put on Hudkins vs. O'Brien and Salvadore vs Mandell, a card that New York would have liked to get, then the 'fiweight championship between La Barba and Genaro and now Young Stribling vs. Eddie Huffman. Any of these boys would be a wow in the East and Donald ought to be able to make some real money on his next show. The last one was handled perfectly.

couples are expected to be special two-ball mixed AMATEUR-PRO AT BRENTWOOD

Paddock, two of the best known golf scribes in this vicinity, copped first-day honors in the Los Angeles Athletic Club tourney at Palos Verdes yesterday, Puryear, after taking a 7 on the first hole and three putting four other greens, still managed to get home with a 76, for low gross honors. Paddock, with an 86-18-68, won low net honors.

More than fifty members of the Mercury Club qualified yesterday and at least 100 more are expected to play their eighteen-hole m pd al round today. Match play in all fights will start Friday.

Other low scores were as follows: E. K. Brown and B. A. Burton, 79; E. S. Stanton and J. Benjamin Fahy, 80; George T. Cline, 81; C. W. Bean, 82; Dick Smith and Robert Edgren, 83.

DIRECTORS' CUP

Johnny Mescal, California's elnema ranking junior star and E. R.
Hurst, club president, are starting
at the top and bottom respectively
of the title flight in the Directors'
Cup tourney at Tom Steven's California Club. Cliff Buck, Gall Martin and twelve other star club
golfers must be disposed of before the sterling pair can hope to
reach the finals, but they are
started and round matches must be
completed by Surday of each week,
it was announced yesterday.

Pairings in all flights are as follows:

First Flight-Johnny Mescal va. Dr. John Shuman J. P. Hass vs. H. R. Barbord; Gall Marin
Cassey; Cliff Buck vs. H. P. Babon; George

side where Jones, provided he does

SQUARES MATCH Wolff, five down in the morn ing round, had squared the match when the turn was reached in the afternoon by shooting a 39 against Knight's poor showing of 44. The Philad siphian, a veteran of golf, seemed to go to pieces entirely once his adversary threatened and had a 7 and five 5s during the nine while Wolff captured two birdies. From this point Wolff drove through eight holes to victory in par style, registering six 4s, a 5 and a 3.

Only one veteran remains in the ing round, had squared the match

and a 3.

Only one veteran remains in the upper bracket tonight—Jess Sweetser—and the most of the series warfare of the next two days is expected to come from the lower side where Jones, provided he does the expected and eliminates Wolff tomorrow, must face the winner of the Guilford-Von Elm struggle, destined to be the day's feature.

New-Car Performance!

The first thing that Boyce-ite Blu-Green Gasoline does is to recall the days when your car was new.

Once again you "step on it" and in a flash you're off! Once more you feel the surge of power! This time a new power-a power that makes a sixty-horse rate an established fact.

And when you find too that this super fuel increases your mileage and that your motor is no longer retarded by carbon formation on the valve seats, valve stems, spark plug points and piston rings, you can well understand why California motorists have added their OK to the legion of enthusiastic users of Boyce-ite Blu-Green Gasoline that now reach from coast to coast.

Drive today to a Gilmore Pump and start your motor on this wonder fuel. You'll be as enthusiastic as the rest.

and its

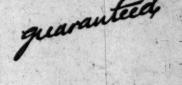

Guarantee

51/2% MONEY

Through our Eastern connections we are now able to offer the public money at the low rate of $5\frac{1}{2}$ % per annum on improved property in settled locations. This includes residential as well as business property. Loans made on a five-year basis.

5½% Flat Loan

up to 40% of a conservative valuation. We make a flat loan at 5½% for three years at reduced commission. This is the kind of a loan that some borrowers have been wanting. Now is the time to get it.

6% Installment Loan

This is attractive to the home owner. With this loan we go close to 60% of the valuation of the property. The payments are easy. The interest is adjusted every month so that the borrower pays interest on his balance only. He can reduce the loan as rapidly as possible.

200-Month Plan

With this plan the loan is entirely amortized in two hundred months at the rate of ½% each month. Amounts of \$8100 to \$100,000 considered on this basis; 6% interest. We approve loans for more than 50% of the value of the property on this plan. It takes the place of the small bond issue at much less expense.

Building Loans

We are making building loans at the low rate of 7%. Will refinance into one of the above loans, according to the nature of the loan. You can start building within 4 or 5 days after application for loan has

Remarkable Recovery of Italian Industry and Reorganization of Finances Pave Way for That Country's Ability Now to Fund War Debt to the United States.

PAUL WILLARD GARRETT

nouncement that Italy would send toward righting the situation. departments, which resulted representatives to this country next month to discuss terms of funding her war debts to the United States, caused no surprise to those well informed on that country's remarkable industrial recovery in the last year.

An idea of the improvement that has taken place in Italy's finances since Signor De Stefani was called to the ministry of finance in October, 1922, may be gained from the statement that for the first time this year since 1910, the national balance sheet shows a surplus, while for the first time in eleven years the budget for the new year foresees a surplus. In three years of the De Stefani regime Italy's fiscal system has been reorganized on the properties of the De Stefani regime Italy's fiscal system has been reorganized on the properties of the De Stefani regime Italy's points of the country are by no means point to increase distance will undoubtedly contribute a share, for indications point to increase distances in Italian in industrial surprises. representatives to this country

foresees a surplus. In three years of the De Stefani regime Italy's fiscal system has been reorganized on a broad and elastic basis. In the year just closed the new minister of finance, Count Voipi, reported a surplus of 209,000,000 lire, against an estimated deficit of 1,355,200,000, the favorable showing being-due to an unexpected increase in tax .egeipts.

An unfavorable factor to which the government has now turned its attention, however, is the growing duverse trade balance, due in large

STANDARD OILS

SESPE HOT SPRINGS NEW SHORT LINE ROUTE COMPLETED

DESTINED TO BECOME WORLD FAMOUS

Round trip from Los Angeles to these wonderful, curative, mineral hot springs, can now be made in one day.

These springs compare favorably in the curative quality of their waters with such world famous springs as Baden Baden, French Lick, and Hot Springs, Arkansas. In quantity of water and degree of heat with which it comes from the ground, they excel any of those mentioned.

AREA AND LOCATION

The property consists of 320 acres of private land, with Hot Springs Cweek meandering through, and is situated about 20 miles up the main Sespe Canyon from the City of Fillmore, Ventura County, California, and about 77 miles from Los Angeles.

FIRST MORTGAGE LOAN WANTED

Of \$100,000 to \$150,000, with which to install further improvements. These to consist of first unit of bath house, dining room, cottages, gen-

We will pay 7% per annum for this money, for one to three years, and give a bonus of an undivided interest in the property, on the basis of present value, which will make the loan pay 12% per annum.

This bonus interest in the property, however, will have the possibility of being worth many times that amount. In fact, we predict, and quote figures below to substantiate it, that this property will be worth at least \$1,000,000 when the said improvements are installed.

There would also be the income from the bath house, dining room, general garage, etc., to say nothing of the returns to be had later on from the sale of total, estimated to total at least a half million dollars.

TAKE A DAY OFF, OR BETTER YET A WEEK END, AND VISIT THESE WON-

al authorized issue \$2,000,000. Principal and interest payable in United States gold coin of a present standard of weight and fineness at the offices of The Chase National Bank of the City of New York and Blair & Co. in New York City, without deduction for any present or future taxes of the Government of the Argentine Nation, or of the Province of Buenos Aires.

illable as a whole at any time on 30 days' notice at 100 plus accrued interest to date of payment.

Bearer Notes in the denomination of \$1000

The following information has been taken from a statement furnished by the Minister of Finance the Province of Buenos Aires:

These Notes will be the direct obligation of the Province of Buenos Aires and are issued for the purpose of obtaining funds with which to carry on railroad construction. The Province will create as security

for the payment of these Notes a first and paramount lien upon all collections from the Consumption Tax levied upon alcohol, tobacco, and playing cards. For the year ended December 31, 1924, such collections amounted to about \$5,980,000 and for the six months ended June 30, 1925, about \$2,122,000. The total collections for 1925 are estimated at \$7,200,000. All of the above amounts are converted at current rate of exchanges.

rent rate of exchange.

The Province of Buenos Aires adjoins the Federal District, which contains the City of Buenos Aires, and is the wealthiest and most populous province of the Argentine Republic. It has an estimated population of 2,640,400 and occupies an area of about 177,000 square miles, or over three times the area of New York State. The total funded indebtedness of the Province as of December 31, 1924, together with this issue, amounted to \$180,138,000 at par of exchange.

All offerings are made when, as and if issued and received by us and subject to approval of our counsel.

All of the above Notes having been sold this advertisement appears as a matter of record only.

Shell production in the Signal Hill field has shown a remarkable steadiness, the total daily yield varying less than 1000 barrels in the last four months without a single new producer having been completed to maintain the flow. The yield, ranging from 29,000 to 30,000 barrels daily, fluctuates with wells going on or off production, due to repairs or maintenance operations.

Official Report

Oil field operations reported to
State Oil and Gas Supervisor R. D.
Bush during the week ending August 29, show thirty new wells
started, as compared with twentyseven during the previous week. Of
the thirty notices to drill filed this
week four were for wells in the
Long Beach field, three in the Torrance field, one in the Richfield,

BUSINESS PHILOSOPHY

BY WILLIAM FEATHER ONE can cultivate and encourage habits of pleasant courtesy, and build up a sense of humor that is a fortification against too much of the dismal. The man who doesn't get happiness out of his job or his business is unfortunate. There's plenty to be had; first-class humor and intellectual stimulus, and even a mild form of gayety. I am all for livening up the business hours. But I'm all against the extremes of grinning idiocy or doleful sourness.

BUSINESS BREVITIES

WALL STREET **PARAGRAPHS**

Renewal of Price Slump Leads to Fears of Further Drop

ary 12.20; March 22.50 and May 23.51 cents.

These prices, made shortly before 2 o'clock, represent a maximum recovery from the low levels of Menday of about 70 points for some months, or the equivalent of 32.50 a bale.

Most of today's advance, like yesterday's raily, was due to covering of shorts from the oversoid conditions the market displayed in Monday's decline, when the bottom levels were the lowest since last May. A factor causing the covering movement was the luil in the recent heavy southern liquidation and hedge selling, and also some modification in private crop estimates.

Ten private estimates make the condition about 52 per cent and the average indicated yield about 14,100,000 bales, against recent expectations of 60 per cent and a government crop report next Tuesday of over 14.300,000 bales without linters, against 62 per cent and 13,550,000 in the last government report covering condition to August 16. Tuesday's government report will be figured up to September 1.

A good deal of profit taking occurred to the last government report will be figured up to September 1.

Long Hours

Long Hours

Margin clerks were looking to another night session, not because of unfinished end-of-the-month work, but rather on account of the lower price levels of the day, and the prospect of having to call upon customers for additional requirements against holdings of long stocks. Just how extensive this might prove was not immediately apparent, particularly in offices that lately had raised the requirements from around 20 per cent to 25 and 30 per cent. In some places high-priced industrials were shorn of 50 or more points from open-market quotations, and the higher margins applied to the balance.

Laggard of Interest

It was estimated that Studebaker would earn about \$10 a share this year, as against the current dividend requirements of \$4, but as the board was not slated to meet for action for at least sixty days, it was too early, even for the students/ of advanced financial thought, to attempt forecasts as to what then might be done. The failure of these shares to advance from time to time, when other motors were actively rising in price, naturally had brought many inquiries to Wall street as to the possible reason, although \$0 u th Bend still maintained its position as the real source of information concerning this oldest of vehicle-making companies. One thing was certain, and that was absence of any pool in the stock. The popularization of the shares through an exchange of two and a half for one today accounted for the fact that 14,000 names were on the stockholders' books instead of 7000 before the readjustment of capital incidentally, the present dividend rate was stressed as being equal to \$10 on the old shares, while current earnings on the same basis would show \$25 for the year. Comparing with Mack Trucks and American Can, each earning in the neighborhood of a \$25 rate, Studebaker was selling on a basis of about \$115 against the more

To further round out its organ-ization, Chrysler was credited with a desire to own its own body com-pany. The street even heard names mentioned and the American Mo-tor Body Company loomed up large

Waiting Turn

The tape was scanned for signs of a turn in Mack Trucks. In which a substantial reaction had occurred from the lately established top. Although there has been considerable taking of profits from below \$200 a share, there were other holdings which remained intact and on which the profits were expected to ride until after the turn of the year. One thing which appeared to confront Mack and other leading truck makers, was the likelihood of stiffer competition, but the impression was that this concern has too much of a head start for others to catch up with and take away its premier position in the industry. Discussions of Mack brought out opinions from bankers that the real showing of the company for the half year had not fully been revealed owing to liberal charge-offs.

Not Yet Through

Familiars with the American Can market program admitted that their plans had been somewhat upset by the entrance of outsiders into the 'picture. They added, though, that most of this stock now was out of the way and resumption of the forward movement was considered highly probable.

Bakersfield when the car in which she was driving toward Bakers-field overturned. Mrs. Ford was rushed to San Joaquin Hospital, where she is suffering from six fractured ribs, a broken collar bone and a pierced lung.
